SHS Parents & Friends Group Annual Community Report 2024

Attachment #4

Welcome to the end of another fun filled, friendship making, exciting and busy year! What a ride it has been!

We started this year welcoming Mark to the lead position in our school, one that he has taken on with commitment and an open mind. The positive changes throughout the school have been enormous and it is wonderful to see students and parents enjoying the school community.

On one of the hottest days, we held our annual Sundowner but this year we added a fun twist with our very own homemade water slide. It was a hit with everyone, old and young, the children had an excellent time, and kept cool! I'm sure I saw Mark lining up for a go, then he had a second thought, realising he didn't want a hip replacement at 50!

Throughout the year the children enjoyed special treats with hot chocolate and fruit toast morning teas on those cold days and we celebrated 100 days of school with what else but 100's and 1000's! It was a lot of fun!

As we have traditionally done each year, we celebrate our mothers, fathers and important parental figures in our lives with our Mother's Day Stall and our Father's Day Breakfast. Both of these events are enjoyed by the children and it's fantastic to see so many fathers join us for a delicious breakfast.

Last month, we held our first parent only event in nearly 5 years! It was well attended by over 70 people and everyone is asking when the next event is . . . stay tuned! It was excellent to see the community support when asking for donations. A special thanks to the school families who donated, as always, these events could not go ahead if we didn't have your involvement.

Another event we took on for the first time was catering for the Interschool Athletics Carnival. This was a massive task, flipping burger patties and assembling buns for over 200 students and parents! Certainly, used as a fund-raising event, when the figures came back it made it all worth our while.

I am so lucky to be a part of this small (but growing!) school community. However, the children would not benefit as much as they do without the help and support of many people.

A special thanks must go to Nicki and Cassandra for all the work they do, printing forms, sending reminder messages, reminding people to sign documents and mainly keeping me in line.

To my Executive Committee, this has been the best year we've had for parent help. You are all amazing and I appreciate your support more than you know.

Mark, thank you for saying yes to so many things! Your confidence in agreeing to events not knowing what was coming is reassuring, but also for reining us back in when we needed it.

I hope everyone has a blessed and safe Christmas and I look forward to seeing you all again next year. Take care.

Meegan Mirco
P&F President 2024
